Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-9, 11-13 are rejected under 35 U.S.C. 102(e) as being anticipated by Tormala et al. (6,221,075).

With respect to the above claims, Tormala et al disclose a bioabsorbable medical device (11,23) comprising a first bioabsorbable contact surface (21) a second bioabsorbable contact surface; as set forth in column 10, lines 38-49, the bottom of the head of the screw), a bioabsorbable lubricating coating disposed on at least a section of each of the first and second contact surfaces, wherein the first and second contact surfaces are moveable with respect to each other, thereby providing reduced device drag; as set forth in column 11, lines 62-67, column 12, lines 1-7, and as best seen in FIGS.4,5. The device made of bioabsorbable copolymers and blend thereof, and the bio-coating made from copolymers and blend thereof; as set forth in column 11, lines 37-50, column 7, lines 40-50, column 9, lines 30-34, column 10, lines 39-50.

Response to Amendment

Art Unit: 3733

Applicant's arguments, see Remarks, filed 2/20/07, with respect to the rejection(s) of claim(s) 1-13 under 103 have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of Tormala et al.

Conclusion

A shortened statutory period for reply to this action is set to expire THREE MONTHS from the mailing date of this action.
